MEMORANDUM FOR: Assistant for Information
Directorate of Administration

25X1 FROM :
Office of General Counsel

VIA : Chief/Freedom of Information and
Privacy Law Division

SUBJECT : Borosage v. CIA - Documents Concerning
Johnny Roselli and Sam Giancana

1. Attached are copies of two memoranda concerning Johnny Roselli and Sam Giancana's involvement in attempted assassination plots against Castro. These documents are included in the Borosage litigation. The description of the transactions surrounding the plots between Robert Maheu, Roselli and Giancana are substantially described in detail in the Senate Select Committee's Interim Report on Assassination Plots against foreign leaders. The details are also included in the Inspector General's report on assassinations, copies of which are presently being reviewed by members of the Information Review Committee (IRC), as to the releasability of the report. The Committee previously ruled that the attached memoranda, if released in whole or in part, would cause further damage to the national security of the United States. In light of the IRC's review of the Inspector General's assassination report, I believe the Committee should also consider the releasability of the attached memoranda. In this regard, your circulation of copies of these documents to members of the Committee for their review would be appreciated.

2. An early decision by the IRC would make a significant impact on the outcome of the Borosage case.
